**PLUCKY GIRL
ON BOARD SHIP**

NEW YORK, October 25.—Pretty Miss Augusta V. Park, of Oakland, Cal., who accompanied her father on a storm fraught voyage on his sailing ship the Acme, is today being voted heroine by the members of the crew. The Acme was just 128 days in rounding the Horn from San Francisco to this port and during that time Miss Park and the members of the crew met with several terrifying experiences. Although the comely young woman only shipped as a companion to her father, who is captain of the vessel before the voyage was finished she had become skilled as a surgeon, nurse, cook, seamstress, sailor and fishwoman.

The Acme had hardly rounded the Horn until it ran into a terrific storm during which time the mate was hurled from the wheel and, in addition to his arm being broken, his right hand was split open. Despite the fact that the storm was fiercely raging, Miss Park set the broken bones, mended the hand and put the arm in splints, and then served as a trained nurse.

Although the vessel encountered several other storms at no time did the plucky young woman display the least symptoms of fright.

**THINKS MARS TORN
BY GREAT QUAKES**BRITISH SCIENTISTS THINK
THAT SUN SPOTS HAVE BEEN
RESPONSIBLE.

LONDON, Oct. 28.—Fresh changes of an extraordinary nature are reported in Mars by the journal of the British Astronomical Association, which says that the planet of mystery during September was nearer the earth than at any date since 1892 and in a favorable position for observation. The phenomena observed, says the journal, are altogether without parallel in the records of the past. Vast changes have transformed the appearance of Mars.

A gloomy yellow veil has enshrouded immense tracts of the Martian surface, obliterating the markings, and changes now in progress on the surface of Mars are of exceptional interest. In view of the theory developed by Professor Lowell that Mars is inhabited by a race of living beings. He argues that the canals of Mars are works constructed by a dying race menaced by starvation on a desert planet to carry water supplied by melting ice caps on the poles of waterless areas near the equator, and thus raise food.

It is suggested that if the markings

have recently disappeared and the yellow veil has covered immense tracts on the surface, there must have been some catastrophe on a gigantic scale, or some cataclysm such as dwarfs the most violent earthquakes known on our planet.

It is inferred that the abnormal electric conditions of the sun, which, according to Sir Oliver Lodge, the noted scientist, caused the recent magnetic storm on the earth, have had a far more terrible influence on Mars. They may have unloosed forces, it is believed, which, if Professor Lowell's theory concerning life on Mars is correct, may have ended forever the Martians' struggle for life.

WINS EVERY EVENT.

At Hutchinson, Kansas, a few days ago, on a half-mile track, the Studebaker E. M. F. "30" ran away from the field in every event. In the (striped touring) one-mile stock car race, with standard 3 to 1 gear, the time was 1:32 from a standing start. In the five-mile standing start the E. M. F. won hands down in 8:45, an average of 1:30. Single laps were timed in 28 seconds. The driver of the Studebaker car was G. C. Wiles, the Studebaker representative. Enthusiasts regard the performance of the car as splendid and believe the entry of the car in similar events here would make it a hard one to beat.

HARDWARE DEPARTMENT

**OOD Artistic Work**

at the Crossroads

A visitor at the Seattle Exposition, a first-class foreman printer, called for information about the chances of going to Hawaii to introduce good American, artistic printing. By way of answer he was handed a splendid circular, in colors and half-tones, just issued from the Printing Department of THE HAWAIIAN STAR NEWSPAPER ASSOCIATION, LTD. He said he would change his mind about coming here to teach.

Our Printing is always clean and artistic, and our prices are the lowest.

We guarantee quick delivery.
